1. NATURE AND CONTINUANCE OF OPERATIONS

Roughrider Exploration Limited ("Roughrider" or the "Company") was incorporated on December 7, 2011 under the *British Columbia Business Corporations Act*. The Company is listed on the TSX Venture Exchange as a Tier 2 Mining Issuer. The principal business of the Company is the exploration and evaluation of mineral properties. The principal focus of the Company is exploring the Genesis property, a uranium project located to the northeast of the Athabasca Basin in Saskatchewan.

The address of the Company's head office is Suite 420 - 625 Howe Street, Vancouver, British Columbia, Canada, V6C 2T6. The address of the Company's registered office is 2500 - 700 West Georgia Street, Vancouver, British Columbia, Canada, V7Y 1B3.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

The Company has no source of revenue, has an accumulated deficit of $3,506,665 at June 30, 2017, and expects to incur further losses in order to explore its mineral properties. These factors cast significant doubt upon the Company's ability to continue as a going concern and, therefore suggest that the Company may be unable to realize its assets and discharge its liabilities in the normal course of business.

The Company's continuing operations are dependent upon its ability to obtain sufficient financing to explore the Genesis property, and upon the successful exploration and development or sale of the Company's exploration projects. Although the Company has been successful in obtaining financing to begin this process, there is no assurance that it will be able to obtain adequate financing in the future, or that such financing will be on terms that are advantageous to the Company.

2. BASIS OF PREPARATION

These condensed interim financial statements, including comparatives, have been prepared using accounting policies consistent with IFRS applicable to the preparation of interim financial statements as issued by the International Accounting Standards Board ("IASB") including International Accounting Standard ("IAS") 34 Interim Financial Reporting, and are consistent with interpretations by the International Financial Reporting Interpretations Committee ("IFRIC") which were effective as of August 29, 2017, the date the Board of Directors authorized these financial statements for issuance.

The preparation of these condensed interim financial statements required management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim financial statements. Actual results could differ from these estimates. Critical estimates and judgments are discussed more fully in the Company's audited financial statements for the period ended December 31, 2016.

3. SIGNIFICANT ACCOUNTING POLICIES

a. Basis of presentation

These condensed interim financial statements are expressed in Canadian dollars, the Company's functional and presentation currency, the currency of the primary economic environment in which it operates. These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as *financial instruments at fair value through profit and loss*, which are stated at their fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Accounting policies used in the preparation of these financial statements are consistent with those described in the Company's audited annual financial statements for the period ended December 31, 2016.

b. Recent accounting pronouncements

<u>For the Company's year ended December 31, 2018:</u>

IFRS 7, Financial Instruments: Disclosures amendment requires additional disclosures on transition from IAS 39 and IFRS 9, and will be effective for the Company's year ended December 31, 2018.

IFRS 9, Financial Instruments introduces the new requirements for the classification, measurement and de-recognition of financial assets and financial liabilities. Specifically, *IFRS 9* requires all recognized financial assets that are within the scope of *IAS 39 Financial Instruments: Recognition and Measurement* to be subsequently measured at amortized cost or fair value. The amendment also introduces a third measurement category for financial assets: fair value through other comprehensive income, and includes a single, forward-looking 'expected loss' impairment model. These amendments will be effective for the Company's year ended December 31, 2018.

IFRS 15, Revenue from Contracts with Customers: This new standard establishes a new control-based revenue recognition model which could change the timing of revenue recognition.

<u>For the Company's year ended December 31, 2019:</u>

IFRS 16, Leases: This new standard eliminates the classification of leases as either operating leases or finance leases and introduces a single lessee accounting model which requires the lessee to recognize assets and liabilities for all leases with a term of longer than 12 months.

The Company is in the process of assessing the impact of the upcoming changes in accounting standards.
